

2022 Charlevoix Venetian Queen

Claire Schotten

Claire has just graduated Charlevoix High School and will be heading to the University of Michigan in the fall. Throughout this past year, she has continued to be involved within her community donating her time at our local food pantry, blood drives, and other community-based organizations. At the University of Michigan Claire plans to earn a degree in biochemistry in hopes of becoming a dermatologist. Congratulations on all of your accomplishments Claire, and thank you for continuing to be such a positive force in our community!
